

## Sony Ericsson Bluetooth Watch-Classic Edition (MBW-150)

### Product description:

You know you have a phone call because your watch is vibrating and the display shows a new SMS has arrived. You're in touch but nobody has to notice. Your watch has become an alternative phone display, in mineral crystal glass and stainless steel. It will even ensure you won't forget your phone. Quartz movements and Bluetooth™ control. Leather and OLED display. A mixture of the classic and the modern in an understated but cutting edge watch.
